The first high frame rate 4K DLP projectors

Ultra-realistic 4K at 60Hz

Your audience will be raving about fantastic images and you'll know why. It's as real as it gets thanks to Christie's new and unique TruLife™ electronics, a quantum leap in video-image processing that is a breakthrough in high frame rate and high resolution video projection. The Christie® D4K2560 and D4K3560 offer ultra-realistic images and smoother video at 60Hz. Precise detail and vibrant life-like images won't fail to capture attention and immerse audiences in your content.

Now you have two 4K (4096 x 2160) choices for creating displays that require high brightness, ultra realism, superior color reproduction and consistent long-life reliability. The Christie D4K2560 and the

Christie D4K3560 are the only 4K resolution projectors built on superior 3-chip DLP® technology, giving you longer, more reliable lifetime performance and unequaled color reproduction with the widest color gamut. Furthermore, with 60Hz video processing motion blur and stuttered movement is significantly reduced, showcasing stunningly realistic visuals that are easy on the eyes.

Both projectors are designed to make it easy for you to put on a breath-taking show.

CHRISTIE®
